## Collaborate!

U.S. GOVERNMENT

[Home](#)[Portfolio](#)[About](#)[Contact](#)

**Hari Gurusubramanian** is a graduate architect with over five years of professional experience in the field. His passion and belief that design transcends any single field made him pursue the Interactive Media Design course at Algonquin College.

His current course has given him exposure in graphic design, photography, user-interface design, and web development.

Keen on applying and strengthening his expanding skillsets, HG is looking for any opportunities to solve problems through clean and playful design.

**Let's Collaborate!**
